IMPORTANT FOR REMOTE CONNECTIONS!

Simultaneous interpretation will be provided in DE-EN-FR-ES-IT. Therefore, for remote connections, **please ensure a high-quality microphone** when you make an intervention with an **active video link** of reasonable quality**.**

Built-in laptop microphones and most headset microphones are of limited sound quality – depending on model they may give issues.

Please also ensure quiet surroundings. The Commission services may not give you the floor if your sound quality is inadequate and your video link does not work.

PLEASE NOTE that physical participation of delegates significantly increases the quality of exchanges during the working group, where possible delegates should participate in the room.
