

DRAFT AGENDA

1. Inorganic arsenic in fish and other seafood: discussion on the additional data for specific species.
2. Follow up to CCCF16.
3. Update on control plans on contaminants.
4. N-nitrosamines in food
 - a. Presentation of the EFSA opinion “Risk assessment of N-nitrosamines in food”
 - b. Exchange of view on the follow-up
5. Presentation by RIVM on the results of an EU funded research project on possible health risks related to the combined exposure to lead, methylmercury, inorganic arsenic, fluoride, non-dioxin like PCBs and polybrominated diphenyl ethers (PBDEs).
6. 3-MCPD esters and glycidyl esters
 - a. Finalization of the technical discussions on the review of the maximum levels for 3-MCPD esters in infant formulae, follow-on formulae and food for special medical purposes intended for infants and young children and young child formulae
 - b. Establishment of maximum levels of 3-MCPD esters and glycidyl esters in other foods for infants and young children
 - c. Establishment of maximum levels of 3-MCPD esters and glycidyl esters in other foods.
7. Acrylamide
 - a. Review of existing benchmark levels
 - b. Establishment of benchmark levels for new foods
 - c. Establishment of maximum levels
8. Continuation of the discussion on the review of the maximum level for perchlorate in green beans.
9. A.o.b.
